| Final Settlement Price | FSP shall be arrived at by taking the simple average of the last polled spot prices of the last three trading days viz., E0 (expiry day), E-1 and E-2. In the event the spot price for any one or both of E- 1 and E-2 is not available; the simple average of the last polled spot price of E0, E-1, E-2 and E-3, whichever available, shall be taken as FSP. Thus, the FSP under various scenarios of non-availability of polled spot prices shall be as under:                                                                                                                                                                                                                                                                                                                                                                                   |                                   |                                   |     |         |                                                            |                                                            |  |    |     |     |     |  |   |     |     |     |        |              |   |     |     |    |     |              |   |     |    |     |     |              |   |     |    |    |     |         |   |     |     |    |    |         |   |     |    |     |    |         |   |     |    |    |    |    |
