All the open positions shall have to be compulsorily delivered either by giving delivery or taking delivery as the case may be. That is, "upon expiry of the contracts, any seller with open position shall give delivery of the commodity. The corresponding buyer with an open position as matched by the process put in place by the Clearing Corporation shall be bound to settle by taking physical delivery. In the event of default by seller to give delivery, such defaulting seller will be liable to penalty as may be prescribed by the Clearing Corporation from time to time".

The penalty structure for failure to meet delivery obligations will be as per circular nos. NCCL/CLEARING-019/2025 dated April 09, 2025 on Master Circular - Clearing & Settlement .

The delivery request for Isabgol Seed contracts will be on staggered basis where the tender period would be the last 3 trading days (including expiry day) of the contracts. During the Tender period, if any delivery is tendered by seller, the corresponding buyer having open position and matched as per process put in place by the Clearing Corporation shall be bound to settle by taking delivery from the delivery center where the seller has delivered the same.

The Buyers and the Sellers need to give their location preference through the Web NCFE system provided by the Clearing Corporation. If the Sellers fail to give the location preference, then the allocation to the extent of his open position will be allocated to the base location.

Delivery Allocation

The Clearing Corporation would then compile delivery requests received from members during the tender period, and shall allocate delivery to buyers having open long position as per random allocation methodology to ensure that all buyers have an equal opportunity of being selected to receive delivery irrespective of the size or value of the position. However, preference may be given to buyers who have marked an intention of taking delivery. The buyer having open position and matched as per process put in place by NCCL, shall be bound to settle by taking delivery from the Approved Warehouse where the seller effects delivery in accordance with the contract specifications.

The buyers / sellers who have to receive / give delivery would be notified on the same day after the close of trading hours. Delivery of Isabgol Seed is to be accepted by buyers at the Approved

Warehouse where the seller effects delivery in accordance with the contract specifications. On expiry, all outstanding positions would be settled by giving / taking physical delivery.

Actual Delivery

On settlement, the buyer's Clearing Member's Pool Account would be credited with the said delivery quantity on pay out. The Clearing Member is expected to transfer the same to the buyer's Repository account. However, the buyer must take actual physical delivery of Isabgol Seed before expiry of the validity date as indicated in the quality test report/Assayer's Certificate of the Assayer or get the same revalidated in the manner prescribed.

Approved Warehouse

NCCL has Approved Warehouses at delivery locations for receipt and delivery of Isabgol Seed. Isabgol Seed will be received and delivered only from the NCCL Approved Warehouse/s. The updated list of Approved Warehouse can be accessed from the link:

Standard Allowances

Sample weight per validation of quality allowed will be as given in the table on account of sample testing and spillage.

Standard allowance at the time of fresh deposit	0.25 %
--	--------

Weight

The quantity of Isabgol Seed received and / or delivered at the NCCL Approved Warehouse would be determined / calculated by the designated weighbridge at the premises of the Approved Warehouse or in its vicinity and the quantity so determined would be binding on all parties concerned.

Good / Bad delivery Norms

Isabgol Seed delivery into NCCL Approved Warehouse would constitute good delivery or bad delivery based on the good / bad delivery norms as per **Exhibit 3**. The list contained in **Exhibit 3** is only illustrative and not exhaustive. NCCL would from time to time review and update the good / bad delivery norms retaining the trade / industry practices.

Isabgol Seed Sampling

1. Isabgol Seed samples shall be drawn by NCCL empaneled assayer at the time of delivery/storage at the Approved Warehouse.
2. 5% of the bags in the assaying lot of 9 MT subject to minimum 6 bags randomly selected from each assaying lot will be cut open, contents spread on the floor and visually checked for presence of any material foreign to the commodity like stones, any plastic material or any substance which is not directly related to the commodity being sampled. Presence of these materials such as large pieces of pebbles, inferior quality or husk in the middle of bag, mixing of any apparent material which is not the actual commodity itself, if any will lead to rejection of the lot being sampled at the time of deposit.

Further a sample from the bags cut open will be taken and checked for extraneous matter.

Representative samples are drawn from these open bags from a lot to make a composite sample of 2 Kg by adopting the procedure of coning and quartering method. Samples so drawn shall be equated into 4 parts,

These samples will be distributed as under:

- One sample to Depositor
- One sample to Warehouse service provider
- One sample for Analysis by assayer
- One sample for record with assayer

Moisture adjusted weight

During Deposit:

If the moisture content in goods deposited is above basis moisture level then the quantity credited to the repository account by the warehouse service provider will be after reducing weight of Jute Bags, applicable Standard Deduction and reduction in weight for moisture above basis moisture level.

Following steps will be followed for deduction of standard allowance and Moisture adjusted weight:

Step 1: Gross weight (W1) of Isabgol Seed Inward = Gross quantity (i.e. after deducting the tare weight of the truck) – Standard deduction

Step 2: MAW Deduction: Quantity to be entered in Repository account (W2) = $W1 - \text{Moisture \% above basis (but } \leq \text{ max permissible)} * W1/100$

W2 will be the quantity that the WSP will mention as Gross quantity at the time of fresh deposit.

It may be clarified that the lot being deposited should remain a deliverable lot even after deduction of all applicable standard allowances, bag weight and reduction due to moisture being higher than the basis moisture as illustrated below:

Weigh bridge net weight at the time of deposit in MT	No of Bags of 75Kg	Bag Weight to be deducted (1 Kg/ 40 Kg bag) in MT	Standard allowance (@ 0.25%) in MT	Moisture at the time of deposit in %	Quantity considered for MAW	Quantity credited to repository account (i.e. after application of MAW) MAW 1:1	Deliverable / Not Deliverable

3.075	40	0.04	0.0077	10	3.0273	2.9668	Deliverable

During Outbound Delivery/ Withdrawal from Warehouse:

The Warehouse has to deliver quantity as per credit in a repository account provided the physical withdrawal is done by EDD and the outbound moisture level is equal or less than basis moisture. Since the buyer will be buying the goods at basis moisture level after application of MAW at the time of deposit, if at the time of outbound delivery, the moisture level is higher than the basis moisture levels then the WSP has to deliver quantity after adjusting for moisture above basis.

Quantity after adjustment of moisture will be arrived as below;

Credit in Repository Account at 8% moisture = W

Moisture at the time of outbound delivery = M%

If M is greater than or equal 8% then, Quantity after Adjustment for Moisture = W multiplied by 100 divided by (100 minus M).

If M is less than 8% then, Quantity after Adjustment for Moisture = W

CHAPTER 3 - CLEARING AND SETTLEMENT

Daily Settlement

All open positions of a Futures contract would be settled daily based on the Daily Settlement Price (DSP).

Daily Settlement Prices

The Daily Settlement Price (DSP) will be as disseminated by the Clearing Corporation at the end of every trading day. The DSP will be reckoned for marking to market all open positions.

Final Settlement Prices

The Final Settlement price will be determined by the Clearing Corporation on maturity of the contract. All open positions on the expiry day of the contract would result in compulsory delivery.

FSP shall be arrived at by taking the simple average of the last polled spot prices of the last three trading days viz., E0 (expiry day), E-1 and E-2. In the event the spot price for any one or both of E-1 and E-2 is not available; the simple average of the last polled spot price of E0, E-1, E-2 and E-3, whichever available, shall be taken as FSP. Thus, the FSP under various scenarios of non-availability of polled spot prices shall be as under:

Scenario	Polled spot price availability on				FSP shall be simple average of last polled spot prices on:
	E0	E-1	E-2	E-3	
1	Yes	Yes	Yes	Yes / No	E0, E-1, E-2
2	Yes	Yes	No	Yes	E0, E-1, E-3
3	Yes	No	Yes	Yes	E0, E-2, E-3
4	Yes	No	No	Yes	E0, E-3
5	Yes	Yes	No	No	E0, E-1
6	Yes	No	Yes	No	E0, E-2
7	Yes	No	No	No	E0

The Settlement Price for any delivery allocation during staggered period (i.e. up to one day prior to expiry) would be the last available spot price displayed for the respective contract.

In case of non-availability of polled spot price on expiry (E0) due to sudden closure of physical market under any emergency situations noticed at the basis center, the Framework for Determination of Final Settlement Price (FSP) as laid down by NCDEX vide its circular No. NCDEX/TRADING-012/2019 dated April 05, 2019 shall be applicable.

Spot Prices

NCDEX will announce / disseminate spot prices for Isabgol Seed relating to the designated delivery center and specified grade/ quality parameters determined through the process of polling a set of market participants representing different segments of the value chain such as traders, importers / exporters, processors etc.

The polled prices shall be input to a normalizing algorithm (like 'bootstrapping' technique) to arrive at a representative, unbiased and clean 'benchmark' spot price for Isabgol Seed. The security of

data and randomness of the polling process will ensure transparency and correctness of prices. The Exchange has the absolute right to modify the process of determination of spot prices at any time without notice.

Dissemination of Spot Prices

Spot prices for Isabgol Seed will be disseminated on a daily basis.
